I will be closing down the above-referenced property for the summer/winter and would like to, as an extra measure of caution, have my water service turned off at the street. Please shut off my water as of: \_\_\_\_\_. I would like to have my water turned back on as of: \_\_\_\_\_. I agree to pay the scheduled summer/winter shutoff/reactivation fee which will be billed to me.

I am aware of and acknowledge that since my water service has not been terminated, I will be subject to and must pay in full the semi-annual water service fees during the above scheduled shut-off period.
