Prudence Island Water District
024 Homestead Ave, Prudence Island, RI 02872

DRINKING WATER WARNING LIFTED

Bacteria absent in the Prudence Island Water District's water

The Prudence Island Water District public water system has notified RI Department of Health Center for Drinking Water Quality that the most recent testing of our water has shown that no bacteria are currently present.

YOU NO LONGER NEED TO BOIL YOUR WATER BEFORE USING

What has been done?

A chlorination and filtration treatment system was installed and placed in service for the Indian Springs water source, and a chlorination system was installed and placed in service for the Army Camp water source. All Prudence Island Water District water is now disinfected with sodium hypochlorite, and a chlorine residual is maintained throughout the distribution system.

If you have any questions or concerns, please contact our office at 401-683-0011 during the hours of 9 AM to 5 PM, or email info@pih2o.org.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the Prudence Island Water District. State Water System ID#: 1592023.

Date distributed: October 5, 2026. _____
